De La Salle News

Month of the Month

De La Salle is proud to announce that Brittany Vincent is the March Student of the Month. In a joint initiative between the school’s Campus Ministry and its City of De La Salle student government, nominations are received from faculty and staff highlighting students who are motivated and enthusiastic about the school’s Lasallian mission inside and outside of the classroom.

Specifically, nominees are students who stand out among their peers by having demonstrated one or more of the Lasallian Principles of Faith, Community, Service, Justice and Intellectual Development.

Among Brittany’s activities outside the classroom, she is a President of the Brother of Richard Rash, FSC, Chapters of the National Honor Society and the Latin Club. She is also a member of the De La Salle National Honor Society and the Latin Club.

Brittany, a senior at Holy Cross, has maintained a 3.72 GPA and plans to attend Loyola University this fall. As the daughter of Steven and Karen Vincent, Brittany has been a huge asset to the Vincent family.

The Kelly High School Chess Team took 4th place at the Chicago Public Schools Tournament, placing Lincoln Park, Hancock, and West Town High Schools at 20th January. The Kelly Junior-Varsity team also finished in a respectable 6th place in the City.

All five members of the Kelly High School Chess Team have qualified to compete in the IHSA Regional Tournament in Peoria in February. This is just one of the successful programs students at Kelly High School are enjoying. Kelly has many clubs, organizations, and academic and athletic teams that Kelly offers its students, including a well-known International Baccalaureate program. In fact, last year Kelly’s wrestling team won the city championship, and the math team placed fourth in the city in Division B of the City of Chicago Mathematics League. All sports teams are against some tough schools such as colleges Prep, Lindblom Model Prep, Lane Tech, Curie, and Von Steuben.

Kelly’s math team has placed higher than other CPS neighborhood school in this competition for the last several years. Last year, Kelly senior Veronica Pletsch’s poem, “Rooted,” won an award at the Chicago Teen Literary Fest. This poem now finds its place on many marquees marking the presence for thousands of Chicago readers. The success of the Kelly Chess team is the latest addition in a string of successes the school has recently enjoyed.

Lipinski Urges the Army Corps to Start Bubbly Creek Restoration Project

Congressman Dan Lipinski (III-D) is calling on the U.S. Army Corps of Engineers (USACE) to begin restoration work on Bubbly Creek in Chicago as soon as possible.

The planned restoration project on the creek, officially known as the South Fork of the South Branch of the Chicago River, has been on hold since 2015, pending completion of remediation work under the supervision of the U.S. Environmental Protection Agency (EPA). According to EPA personnel, the relevant cleanups were completed in October of last year, clearing the way for work on the USACE restoration project to restart. However, as of this January, the restoration project remains on hold.

“On October 25th of last year, an oil spill was discovered in Bubbly Creek, causing damage to the environment and wildlife, and prompting a two-week cleanup effort, led by the EPA at taxpayer expense,” stated Rep. Lipinski in letters to the USACE and EPA.

“The source of the oil is unknown, it is difficult to know how to prevent similar events in the future. I believe that some of the work planned for Bubbly Creek will help prevent further future oil spills and other pollution of the creek.”

In an effort to restart restoration work and facilitate information sharing between the USACE and EPA, Congressman Lipinski is proposing a meeting in Chicago that brings both organizations to the table for a conversation that will help identify a promising path forward for Bubbly Creek.

Rep. Mah to Host Free Utility Clinic for Local Residents

To ensure that bill-payers are not overpaying for services, the Citizens Utility Board and state Rep. Theresa Mah, D-Chicago, will be hosting a clinic to help residents possibly save money on electric, gas and phone bills on Monday, February 5 at John C. Haines Elementary School in Chicago.

“With winter weather increasing residents’ utility usage, it’s important that consumers are not overpaying for services that they may not need or use,” said Mah. “CUB does a great job of identifying hidden fees and unnecessary charges, while educating consumers on energy conservation.”

The event will be held on Monday, February 5 from 5:00 p.m. - 7:00 p.m. in the lunchroom of John C. Haines Elementary School, located at 247 W 23rd Pl. in Chicago. Community members are asked to bring current copies of electric, gas and phone bills for a CUB expert to personally review the statements and find ways to provide savings. Volunteer Spanish and Chinese translators will also be provided for those who need language assistance.

“Many times people are paying a substantial amount more than they should be on everyday utilities,” said Mah. “This clinic gives my constituents the opportunity to receive personalized and private advice on how they can potentially save money from the consumer protection group, Citizens Utility Board.”

Registration is required to participate in this event. To register, residents are encouraged to call Rep. Mah’s district office at 872-281-5775 and be sure to include whether or not a translator will be needed. Parking will be available in the Haines Elementary School Parking lot on and nearby streets.

Mah represents the 2nd District, which includes the Chicago neighborhoods of McKinley Park, Pilsen, Chinatown, Bridgeport, Brighton Park and Back of the Yards.

Coalition for a Better Chinese American Community

The Coalition for a Better Chinese American Community (CBCAC), Chicago Metropolitan Agency of Planning (CMAP) and 25th Ward Alderman Sula held a signing ceremony to dedicate the Chinatown Community Vision Plan in 2015. Over the course of two years, the working group committees for transportation, education, parks, development and residential community have been formed and tasked to identify and assess priorities for the Chinatown community. Working groups have been made up of local experts, city-state officials, community leaders and committed community members.

In 2015, transportation improvements included the completion of the first phase of the Wells-Weston Connector, CTA’s 31st Street bus pilot extension and a community walkability report. Safety, a top concern for Chinatown residents, has been strengthened through local efforts and community policing. The Chinatown Chamber of Commerce has taken the lead on cleanliness, safety, and tourism improvements through the application of the Chinatown SSA #78. Additionally, CBCAC has been working with CPS to improve quality school mechanisms for the Greater Chinatown community with a Board of Education vote in February.

Over the past two years, collaborations with institutions, including the Field Museum and the academic institutions of Loyola University Chicago, Illinois Institute of Technology, and University of Illinois at Chicago have provided additional technical insights to implementation. Professors and students from these institutions have worked on issues including housing, gentrification and displacement, community gardens, and placemaking. At the same time, community engagement has driven the priority areas for this upcoming year.

For more information about how individuals can participate, visit www.chicagocbcac.org.

This marks the third consecutive year that Mr. Dowling’s homeroom has surpassed $1,002,881 in mission collections, good enough for first place in the entire school. As a whole, De LaSalle raised just under $8,250 for the various worthy entities that benefit from the weekly mission collections.

Among the recipients are De La Salle’s twin school (St. Joseph in Erie, on the Continen of Africa). St. James Food Pantry in Chicago and disaster relief in areas that were hit by earthquakes or hurricanes this year.

This marks the third consecutive year that Mr. Dowling’s homeroom has surpassed $1,002,881 in mission collections. De La Salle congratulations and thanks Mr. Dowling and all the students for their generosity.

Record Number of Senior Citizens Apply for Senior Exemption

On the first day after a weeklong reminding seniors to apply for the senior exemption before the February 7th deadline, the Cook County Assessor’s Office and suburban satellite offices were flooded on Friday with a record number of 1,015 seniors seeking to apply for the exemption.

Assessor Berrios recently passed legislation that increased the senior exemption and reduced the annual household income required to qualify for the senior freeze. To qualify, seniors should be a property owner in Cook County and 65 years of age. In early January, the Assessor’s office mailed renewal forms to previous recipients. By law property owners must file for a senior exemption and freeze on a yearly basis.

Helping senior citizens reduce costs is one of my top priorities as your Cook County Assessor. I encourage every senior to take advantage of the senior exemption before the deadline of February 7th. Our friendly staff will assist you either in person or over the phone,” said Cook County Assessor Joseph Berrios.

Assessor Berrios has been working to fix the system he inherited. To better inform communities about the appeal process without the need for an attorney, the Assessor’s Office has increased community outreach seminars, workshops, and appearances to over 290 annually.

Seniors have until February 7th to apply for a senior exemption. For more information or to request an application please call the Cook County Assessor’s Office at 312-443-7550 or visit www.cookcountysassessor.com. Seniors can also go to the downtown office at 118 N Clark Street, Third Floor, or any of the satellite offices for assistance.
